

Tier 1 Noncontributory Retirement System

Pension Basics

Your URS pension gives you stable income throughout your retirement. After you retire, your pension pays you monthly for the rest of your life and possibly your spouse's.

» *Look inside to estimate how much your pension will pay*

This brochure provides a brief overview of Tier 1 Noncontributory Retirement System pension benefits. Go to www.urs.org for more details about your pension or to download the URS Pension Basics brochure that applies to you.

BENEFITS

How Much Will My Pension Pay Me?

$$\text{Number of Years of Service} \times 2\% \times \text{Average 3 Highest Years' Salary} = \text{Basic Yearly Pension Benefit}$$

Estimating your basic retirement benefit is simple. Just follow the formula above. Use our calculators at www.urs.org for a more detailed estimate.

EXAMPLE	
Years of Service	→ 30 Years
x
2%*	→ 60%
x
Average Salary (Average of 3 highest years)	→ \$40,000
=
Benefit	→ \$24,000 / Year \$2,000 / Month*

*Note: Any service credit earned prior to July 1, 1975, may be calculated differently.

Cost-of-Living Adjustment (COLA)

You'll get a cost-of-living adjustment (COLA) on the anniversary of your retirement date, equal to the rate of inflation, based on the consumer price index. This increase is a simple COLA limited to an annual maximum of 4%.

If you have service credit before 1989, you may get an additional 3% added to your pension benefit.

Early Age Reduction

If you have **fewer than 30 years of service** and retire **before age 65**, your benefit is reduced. You'll get 3% less for every year between age 60 and 65 and 7% less per year for every year below age 60.

When Can I Retire?

Your pension eligibility depends on your age and years of service. Here are the minimum qualifications:

- » **65** with at least **4** years of service
- » **62** with at least **10** years of service*
- » **60** with at least **20** years of service*
- » **Any age** with at least **25** years of service*
- » **Any age** with at least **30** years of service

*Early age reduction if you retire under age 65 with fewer than 30 years.

ELIGIBILITY

PAYOUTS

What Are My Payout Options?

When you apply for retirement, you'll choose among **several payout options**. For example, Option 1 is the maximum benefit payable to you, but it pays nothing after your death. Other options will pay your spouse* after your death, but **decrease your monthly benefit**.

Partial Lump-Sum Option (PLSO)

At retirement, you can choose to get a **lump-sum payment** equal to 12 months or 24 months of your lifetime monthly retirement benefit. By choosing a lump-sum payment, you accept a permanently reduced lifetime monthly benefit.

▼ **This example based on:**

- » \$40,000 final average salary
 - » 30 years of service
 - » Member age 62 and spouse age 60
- *Spouse at the time of retirement

OPTIONS

Purchasing Service Credit

Increase the amount of service credit you have

— and increase your retirement benefit — by reinstating and/or purchasing service credit. For example, you can eliminate any early age reduction by purchasing up to five years of future service.

Death Benefits

If you die before retiring:

- » Your beneficiary may get a payment of 75% of your highest annual salary
- and**
- » Your spouse will get a monthly lifetime benefit if you have been married at least six months, and
- » you qualify for retirement, but are not yet retired, or
- » you have at least 15 years of service

If you have a contributory account and a monthly spousal benefit doesn't apply, your beneficiary will get the balance.
