

Tier 2 Public Safety and Firefighter Hybrid System

Hybrid Option

You're in the Tier 2 Retirement System if you began employment or first became eligible for URS **on or after July 1, 2011**.

The Hybrid option (**Hybrid Retirement System**) is one of two Tier 2 options that combines a pension benefit and 401(k).

This brochure provides a brief overview of the Tier 2 Public Safety and Firefighter Hybrid Retirement System. Go to www.urs.org for more details about your benefits.

BENEFITS

What's the **Hybrid Option**?

Your employer contributes an amount equal to 14% of your salary to fund the Hybrid Option, which combines a pension and, in some cases, a 401(k). A pension provides a lifetime income stream based on the formula below.

$$\text{Number of Years of Service} \times 2\%^* \times \text{Average 5 Highest Years' Salary} = \text{Basic Yearly Pension Benefit}$$

**Service earned before July 1, 2020, will be multiplied by 1.5%.*

E X A M P L E	
Years of Service	→ 25 Years
x
2%*	→ 50%
x
Average Salary (Average of 5 highest years)	→ \$60,000
=
Benefit	→ \$30,000 / Year \$2,500 / Month

Cost-of-Living Adjustment (COLA)

You'll get a cost-of-living adjustment (COLA) on the anniversary of your retirement date, equal to the rate of inflation, based on the consumer price index. This increase is a simple COLA limited to an annual maximum of 2.5%.

When Can I Retire?

Your pension eligibility depends on your age and years of service. Here are the minimum qualifications:

- » 65 with at least 4 years of service
- » Any age with at least 25 years of service
- » 62 with at least 10 years of service*
- » 60 with at least 20 years of service*

**Early age reduction if you retire under age 65 with fewer than 25 years.*

ELIGIBILITY

Early Age Reduction

If you have fewer than 35 years of service and retire before age 65, your benefit is reduced.

Age	Reduction
64	9.25%
63	17.49%
62	24.87%
61	31.49%
60	37.44%

PAYOUTS

What Are My Payout Options?

When you apply for retirement, you'll choose among **several payout options**. For example, Option 1 is the maximum benefit payable to you, but it pays nothing after your death. Other options will pay your spouse* after your death, but **decrease your monthly benefit**.

*Spouse at the time of retirement.

- » \$60,000 final average salary
- » 25 years of service
- » Member age 65 and spouse age 62
- » Service accrued after July 1, 2020

Purchasing Service Credit

Increase the amount of service credit you have — and increase your retirement benefit — by reinstating and/or purchasing service credit. For example, you can eliminate any early age reduction by purchasing up to five years of future service.

How the Pension Contribution Rate Impacts Your Benefit

The total cost of the Hybrid Option benefit varies based on the yearly pension contribution rate. Employers are required to pay the equivalent of **14%** of your salary to fund your benefit. If the pension contribution rate exceeds 14%, you'll have to pay the difference as a payroll deduction, unless your employer chooses to pick up the employee cost. If the pension contribution rate is lower than 14%, you'll get the difference in the form of an employer 401(k) contribution. Go to www.urs.org/rates to see the current pension contribution rate, as well as the rate history, and to learn more.
