HB0366S02 - Health Care Amendments

Any Fiscal Impact - no

Updated 03/06/2019 17:06:14 by David Hansen

HB 366 S02 allows governmental procurement units to use PEHP services for medical care in addition to pharmacy for individuals who are not employed by the procurement unit, for example, inmates. As such, this would not impact costs to the State Health Insurance Risk Pool, but could generate costs savings for procurement units and operating revenue for PEHP.
