

**HB 359, DENTAL BILLING AMENDMENTS, (Dunnigan, J)**

**Anticipated Fiscal Impact: No fiscal impact**

HB 359 has two parts. The first part deals with leasing dental networks. The second part requires dental plans to post their payment policies online. The first part doesn't impact the State Employee Dental Plan because PEHP doesn't lease a dental network. The second part is largely consistent with PEHP's current practice but will require some additional administrative efforts. Those efforts, however, can be absorbed within existing budgets.
