HB0116 - Medical Billing Amendments

Any Fiscal Impact - no

Updated 01/11/2022 13:07:22 by David Hansen

HB 116 would require a medical provider to bill an insurance company within 90 days of the services performed or bar them from additional collection efforts. Currently, PEHP requires providers to bill within one year of service being performed. While the vast majority of medical services are billed within 90 days to PEHP, we would expect the effect of this bill to have virtually 100% of medical services being billed to PEHP within 90 days. Therefore, we do not expect any measurable impact to the state employee health plan.
