

**1st Sub HB 233 – Disability Benefit Amendments
(Rep. King)**

**Anticipated Fiscal Impact for the State Long-Term
Disability Program: \$2,226,509 Annually/Premium
Increase from .5% to .67% of Salary**

Summary

This bill limits the State Long-Term Disability Program for ongoing mental health benefits by creating a pilot program for this benefit of three years. While this will limit the costs after three years, it does not change the per year cost analysis during the pilot program from the original bill. That fiscal impact was \$2,226,509 Annually/Premium Increase to the State Long-Term Disability Program, and an increase in premium from .5% to .67% of Salary.
