

HB 527 S3 PHARMACY PRICING AMENDMENTS (Hall, Katy)

Anticipated Fiscal Impact: none

The 3rd Sub includes in its direction to PEHP that business practices include increasing member premiums. Because there wouldn't be another way for PEHP to offset the costs of this bill other than by doing this, the effect of this new language to the 3rd Sub is that member premiums would increase by \$1.08 per month for each employee and each dependent. This would be in lieu of a state appropriation.
