

#### **Dear Valued Member:**

Even in uncertain times, you can feel certain about the health and resilience of the URS pension fund.

We manage this fund with a long-term horizon to maximize returns throughout all market cycles, with an emphasis on downside protection.

It's built to stay healthy in every economic environment.

In 2019, amid vigorous financial markets, the fund returned a lofty 14.45%, growing to \$35.2 billion. Our funded status, as of December 31, 2019, was 91.7%, making URS one of the most well-funded statewide pension plans in the country.

Needless to say, much global history has transpired since then. However, the URS pension fund's long-term bill of health remains clean. Our investing strategy protects principal as much as possible during times when the economy may be under the weather (see a summary of our investment philosophy on Page 4).

There's still a lot of history to be written between now and the time I write this letter next summer to report on calendar year 2020.

Although the short-term details may differ, I have no doubt that our long-term prognosis will continue to be good.

In the meantime, please stay safe and healthy this summer. Follow the guidance at coronavirus.utah.gov.

And rest easy that the URS pension fund remains healthy, even in these uncertain times.

### **Return on** Investment

The average portion of benefits paid through investment returns over the past 20 years is 64%.

## **Our Investment** Philosophy

The asset allocation of the URS pension fund is designed to meet long-term obligations, protect members' benefits, and minimize risk and volatility. We take a longterm perspective.

We prudently invest with appropriate asset diversification to maximize long-term returns throughout all types of market cycles, with an emphasis on downside protection.

Our asset allocation is designed to be less reliant on public equity and more diversified than a traditional portfolio. It includes assets that have little or no correlation to the price movement of equities. Our goal is to generate returns, diversify, and reduce risk.

"Our greatest happiness does not depend on the condition of life in which chance has placed us, but is always the result of a good conscience, good health, occupation, and freedom in all just pursuits." - THOMAS JEFFERSON
